**Subject:** Tropicana Park

Mayor and City Council:

Thank you for your stewardship and leadership last night regarding Tropicana Park. With the exception of one, I saw a cohesive team working together to solve a problem in our City. Your willingness to listen to input from all sides and come to a compromise was impressive. I greatly appreciate the time you dedicated to the topic as well as the personal time you dedicated to research the issue. You had the facts at hand and applied them to the solution. Well done.

Surely, there will be those on both sides of the issue that will not be satisfied. I am, and I look forward to seeing the plans developed that reflect your directives to Staff. We're close to the finish line.

The next issue I see coming up is 7 Islands. I look forward to working with all of you on that important initiative in District 6 and I would greatly appreciate an update on the status of Concept D-1 as was approved by Council. Developers were told a respondent would be chosen on December 19, 2019. I would also like an update on that timeline, but both updates are a discussion for a future date.

Thank you again. I am here to help in any way you need.
